Compatibility: PC (standalone) version of the game also requires the DirectX 9 runtime to.Q: Angular JS Multiple subscription in factory I have two services('messages' & 'notifications'). I want messages to retrieve messages (from service'messages') when service 'notifications' calls a function. So, I am using \$rootScope.\$on() in my message service factory to fetch data from database. In order to avoid race condition,i use \$rootScope.wait(duration) to ensure that no more than one service is accessing the database. Here is my code :

```
.factory('messages',function($rootScope,messagesService) {
    var messages = $rootScope.messages = []; var
    messagesAvailable = false; $rootScope.$on('$broadcast',
        function () { if(!messagesAvailable){
messagesService.fetchAllMessages(); } }); .factory('notificati
ons',function($rootScope,notificationsService) { var
    notifications = $rootScope.notifications = {}; var
    notificationAvailable = false; 0cc13bf012
