"Ultimate Arena" features a number of different events, along with a couple mini-games within the game. The core gameplay is made out of four different event types, but many more are planned. - First is the Event Mode, in this mode you are presented with a goal of different size and shape. You can select from a number of pre-made areas (like the inside of a high-rise, the top of a building, a beach, or a mountain) or you can create your own from scratch. The playable areas each have one objective, be it the capture of territory, destroying the other team, escaping the other team, or finding out who's the most accurate shot. -

Second is the Arena Mode, this mode is where the traditional Combat Arena gameplay is located. In this mode you can select an arena (Home, Jungle, Beach, Mountain) or create your own custom arena from scratch. In addition to that, you can select from a number of different challenges in this mode. Be it the capture of territory, destroying the other team, escaping the other team, or find out who's the best drinker. - Third is the Arena Battleground, in this mode you are presented with a goal of different size and shape. You can select from a number of pre-made areas (like the inside of a high-rise, the top of a building, a beach, or a mountain) or you can create your own from scratch. The playable areas each have one

objective, be it the capture of territory, destroying the other team, escaping the other team, or finding out who's the most accurate shot. - Fourth is "Card Battles", "Ultimate Arena" features Card Battles along with a Hero Battle. In Card Battles you can select an Arena Deck, or you can make your own from scratch. Your Arena Deck consists of multiple card types (usually 3-4), and each card has a special effect on any character from the Arena. When you play a card the player determines which of their characters will use the ability on the card to gain an advantage. Hero Battle is a 2-player Battle between two Hero Characters. At the start of the battle, you are presented with a number of Deck Cards to use and hand out. Every

turn you receive a new Hand Card, that turns the battle in your favor. Use the cards wisely, a miss can be a costly. When one player runs out of deck cards they lose. (Currently there is a maximum of 8 deck cards
